- On November 6<sup>th</sup>, Bathurst Sustainable Development sent a letter to the CELC. The response is ready to be sent and will be forwarded to BSD next week.

**5. Old Business**

*CELC Flyer #2 – Status*

- The flyer has been finalized and formatted; it will be circulated to Belledune community next week.
- Discussion took place regarding the topic for third flyer. Originally to be EIA process, however CELC felt it would be more informative to share info on the Bennett process now that the building has been erected on-site.

**6. New Business**

*Report: Health Risk Assessment of Soil Quality in Zone of Influence at Récupère Sol Plant in Saint-Ambroise, Québec – January 14, 2004*

- This report was written by the Environmental Health Team of the Quebec Public Health Department - Régie régionale de la santé et des services sociaux du Saguenay–Lac-Saint-Jean.
- The concentrations of dioxins and furans found in soils in the zone of influence of the Récupère Sol Inc. plant are at a tolerable level based on current criteria governing the protection of public health. According to the health risk assessment, they represent no significant addition to the daily dose to which the general population is already exposed.

*Report: Baseline Soil Monitoring Program*

- Agreed that CELC members would review document outside of meeting and bring any questions to the table at the next meeting.

**7. Additions to Agenda**

**8. Next Meeting**

- March 11, 2004 at 7:15pm

**9. Adjournment**

- Meeting was adjourned at approximately 8:20PM
