

## **Bennett Environmental Inc. Announces New Project**

**Oakville ON, (July 8, 2010), For Immediate Release** – Bennett Environmental Inc. (TSX:BEV) (the "Company" or "BEI") today announced that it has entered into a contract to remove and treat approximately 10,500 tonnes of PCB contaminated soil located in southern Ontario. It is expected that the soil will be removed from the property in 2010 and processed at the Company's Saint Ambroise facility based on the operating requirements of the facility. The removal and treatment of the soil is subject to the client completing specified financial requirements.

### **Forward Looking Statements**

*Certain statements contained in this press release and in certain documents incorporated by reference into this press release constitute forward-looking statements. The use of any of the words "anticipate", "continue", "estimate", "expect", "may", "will", "project", "should", "believe" and "confident" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. BEI believes that the expectations reflected in those forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included in, or incorporated by reference into, this press release should not be unduly relied upon. These statements speak only as of the date of this press release. BEI undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.*
